PRESS RELEASE

Fischer warmly invites to:
Application Day on 03/24/2020

Sindelfingen, Germany, 02/04/2020. Product experience, expert consultation and networking opportunities. With this in mind, Helmut Fischer GmbH is organizing its first Application Day. Interested parties are invited to visit the application laboratory in Sindelfingen on 03/24/2020 between 10 am and 4 pm. Fischer’s range of metrological instruments can be tested and questions can be answered directly by Fischer experts onsite.

As a full-range supplier in the field of surface testing, Fischer offers a comprehensive product portfolio of metrological solutions. On the newly designed Application Day, visitors will have the opportunity to experience measuring devices from all product groups. Handheld gauges for coating thickness measurement, X-ray fluorescence (XRF) devices for coating thickness measurement and material analysis as well as measuring devices from the field of nanoindentation and scratch are available for testing purposes.

Experienced Fischer experts will be present onsite to answer all questions. Interested parties can arrange an appointment for an individualized session to have enough time to discuss specific topics and measurement tasks. All participants can expect a comfortable ambience with refreshments, along with the opportunity to exchange information and extend their network.

Application Day is held in the company’s application laboratory in Sindelfingen, Germany. More information including the registration form can be found at www.helmut-fischer.com/tdp
